

## *The Michael Messages*

### *Awakening*

*Loved one, only one spark is needed to light a flame. So it is with all of you. The spark may come in a myriad of different forms: the scent of a flower, music, the rustle of the wind, words in a book, art, or the smile of a beloved friend. Each flame connects another link in the spiraling chain of human consciousness. The warmth opens each heart toward remembering a higher level of awareness. We rejoice in the light created by each spark, igniting a new flame.*
